

Module 7: Maintaining Sustainability (WEEKS 12-13)

Overview...

While corporations, communities, and individuals talk about the importance of maintaining sustainability, we fail to acknowledge specific activities which are constantly hampering the environment around us. It's easy to blame the large-scale industries... third world manufacturing economies... but, our individual actions could also be measured. Ask yourself, how long will it take to implement a sustainability initiative? And more importantly, is there enough support to maintain the initiative?

Objectives...

- Clarify the goals and context for sustaining efforts.
- Create a plan to anticipate what resources will be necessary to sustain efforts.
- Identify strategies utilized to sustain initiative(s).
- Produce a communication plan to secure resources for efforts.
- Outline a specific action plan for sustaining your efforts.
- Develop the ability to reflect and articulate sustainability maintenance.
